

Natural Sciences (Part I)

Course Changes for the academic year 2020-21

Due to the effects of the Covid-19 pandemic and government guidance, we have had to make some changes to the programme in order to mitigate against risks to health and to give you the best possible academic experience in the circumstances. We will continue to monitor and respond to the changing public health situation.

This document outlines changes to Part I. For information on changes to Part II and Part III, see the separate document which can be found at <https://www.undergraduate.study.cam.ac.uk/coronavirus/course-information-2020-entry>.

The changes are:

- All lectures will be delivered online
- Practical teaching will be delivered as a mixture of online provision and face-to-face teaching. The details will vary according to the space requirements and risk assessments for the individual practical laboratory class. Further information on specific subjects will be provided in due course.
- Field courses will be organised and run when possible.
- Supervisions will be provided by your College. Your Director of Studies will provide more detail at a later date.
