

## Psychological and Behavioural Sciences: A Level/IB Requirements by College for 2024 Entry

The table below details A Level/International Baccalaureate requirements, as well as additional requirements, for this course by College. Colleges may still vary offers to take account of individual circumstances. **This information is for 2024 entry (or deferred entry for 2025).**

### Subject requirements

**Required:** No specific subjects required by all Colleges, but applicants would normally be expected to have taken A Level/IB Higher Level Biology or Mathematics. Where this is not the case, applicants should show evidence of strong performance in the Sciences to GCSE level (or its equivalent, as demonstrated in a high school transcript). For IB applicants, if taking Maths at Higher Level we recommend Analysis and Approaches for the most competitive application, however Applications and Interpretations will also be considered.

Some Colleges may require applicants for this course to take a written assessment if shortlisted for interview. You will not need to register in advance for this assessment and the Colleges will provide details directly to you.
