Undergraduate Admissions Statistics – 2013 cycle

The following tables and charts are produced annually and are intended to provide a statistical analysis of applicants to the Cambridge Colleges based on UCAS data.

The data has been prepared on behalf of the Admissions Forum of the Cambridge Colleges by Cambridge Admissions Office (telephone: 01223 333308, email: caodata@admin.cam.ac.uk).

Notes for information

- These statistics refer to applications made from September 2012 onwards for admission to courses starting in October 2013 or by deferred entry for courses starting in October 2014. Applicants holding a deferred offer from previous admissions rounds are not included. Please note that the statistics also exclude 165 applicants (115 last year) through UCAS who did not submit a Supplementary Application Questionnaire (SAQ) in addition to a UCAS application, as required to complete their submission to the University.
- The term 'Home' refers to applicants who have indicated in their UCAS application that they are UK nationals permanently resident in the UK. For more information about the UCAS application process please see: www.ucas.com/apply.
- Acceptance figures include only those applicants who received an unconditional firm offer of a place. It excludes those made conditional offers who were unsuccessful at confirmation.
- Percentages throughout have been rounded to one decimal place, so values given may not always add up to 100.
- Please note that the statistics are not intended for use in the University's return to the Office of Fair Access (OFFA), as they are calculated on a different basis. OFFA reporting is on a year of entry rather than an admissions round basis, and excludes students who withdrew post-confirmation or otherwise did not come into residence at the University.
- Equivalent tables for the previous application cycle may be found in: www.study.cam.ac.uk/undergraduate/apply/statistics/archive/admissionsstatistics2012.pdf.

* The 'All Others' category includes Home applicants not at UK schools and colleges and other applicants at any type of institution.

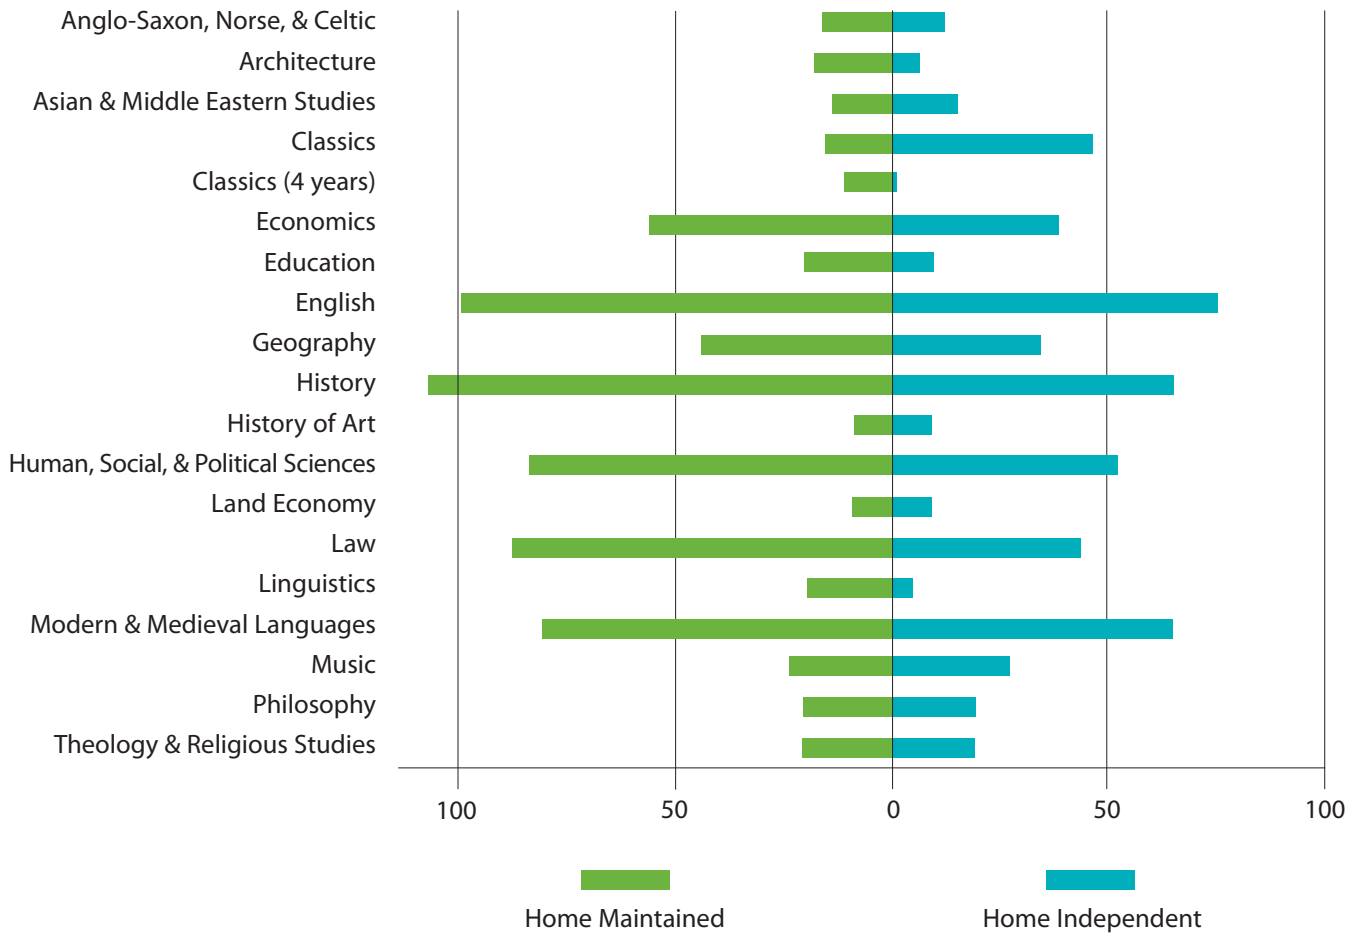

† While most applicants for the Medicine Graduate Course apply to Cambridge for entry directly following study at an HE institution, some applicants undertake further science A Level study at UK schools or colleges and are categorised accordingly above. Such applicants are recorded in this table for completeness but omitted from the charts that follow as their number is so small.

The College of application in the data above is defined as the applicant's first choice College (or, in the case of an open applicant, the College to which the applicant was allocated) regardless of subsequent transfers through the pools.

The figures include only Home applicants who applied from a school or college in the UK and show the percentage of applications and acceptances by College from the maintained sector, including FE institutions.

* The majority of applicants to the four Mature Colleges apply from institutions other than UK schools and colleges, or independently of a school or college. Relevant applications and acceptances are counted in this table, but differences of one or two applicants can have a disproportionate effect on the percentages year-on-year and no particular conclusion should be drawn from this.

* The 'All Others' category includes Home applicants not at UK schools and colleges and other applicants at any type of institution.

Applications:

- Applicants to Cambridge can choose to make a **direct** application to a College of their choice or to make an **open** application, where the application is allocated to a College by computer algorithm.
- Applicants may be placed in the **Winter Pool** by the College to which they applied (or were allocated in the case of open applicants) for a number of reasons, summarised here: www.study.cam.ac.uk/undergraduate/apply/ourdecision.html.

Offers:

- **Direct** offers are those made by the College to which applicants applied (or were allocated in the case of open applicants), regardless of whether the application was placed in the Winter Pool.
- Offers made **via the Winter Pool** are those made to pooled applicants by a College other than that to which they applied (or were allocated).
- Offer-holders may sometimes be placed in the **Summer Pool** by their offering College if, following the publication of examination results, they have narrowly missed the conditions of their offer.

Acceptances:

- Acceptances may be made **by the offering College**, regardless of whether the application was placed in the Summer Pool, or by a College other than that which made the original offer **via the Summer Pool**.
