UNIVERSITY OF
CAMBRIDGE

Hands on Science Day

Day event for young people in care in school years 7 – 9

What will the event involve?

- A University trail round the centre of Cambridge
- Hearing from a care leaver student
- Free lunch at Magdalene College
- A Science carousel! Watch and take part in lots of scientific experiments on different topics, including:
 - The physics of light and sound
 - How hot water can be split into its elements using electricity
 - The biology of the human body

Who is the event aimed at?

The event is for young people in care of all abilities in school years 7 - 9, who are enthusiastic about any aspect of education. Perhaps you would like a taste of higher education or simply want to discover more about your interests and future options? Come along and be informed and inspired.

Where?

The event will be held at Magdalene College at the University of Cambridge. Students are welcome to bring a foster carer/social worker/teacher with them, and a foster sibling/friend if they wish. All reasonable travel costs will be funded by the University. If you make a booking you will be contacted by email nearer the time with further information.

When?

Saturday 30 May 2015, 10.30am for an 11am start, finishing at 4pm.

Book your FREE place via our website (see below).

For more information contact Claire Gardner on 01223 766872 or email care@cao.cam.ac.uk.

***** Bookings will close at 5pm Friday 22 May,
or earlier if the event reaches capacity*****
