

YOUR NAME: _____

Admissions Test – Part I

Faculty of Philosophy

4 December 2018

The total time for the test is 1 hour.

The test has 2 parts. Part I, which lasts 20 minutes, contains 16 multiple-choice questions. You should mark your answers to these questions onto this question paper itself, which will then be collected from you.

The question paper for Part II, which lasts 40 minutes, will then be given out. It will ask you to write a short essay. After 40 minutes that second question paper, together with your essay, will be collected from you.

You are not allowed to take either question paper from this room, nor any other notes or written material.

YOUR NAME: _____

- 1 “The inner workings of modern computers are extremely _____. So when computers malfunction, they are _____ to repair, to the point that it is quite usual to _____ the entire unit, rather than attempting to fix it.”

Which of these fillings makes the best sense of the passage?

- A simple / easy / repair
 - B simple / difficult / replace
 - C complex / easy / repair
 - D complex / difficult / replace
 - E simple / difficult / discard
- 2 “The sentence ‘Republicans _____ IRS chief over lost emails’ is ambiguous; it is unclear in what sense the IRS chief is being _____.”

Which of these fillings makes best sense of the passage?

- A grill / grilled
 - B question / questioned
 - C cook / cooked
 - D defeat / defeated
 - E undermine / undermined
- 3 “Every year, thousands of customers buy cheap fruit from The Generous Grocer. But all of them could afford to pay more. So The Generous Grocer could easily increase its profits by charging more.”

Which of the following expresses the most serious flaw in the argument?

- A It ignores the fact that millions of fruit enthusiasts do not use The Generous Grocer.
- B It assumes that even if The Generous Grocer charged more, it would still have as many customers.
- C It ignores the fact that it would cost The Generous Grocer more to serve more customers.
- D It implies that some high-end customers are put off by The Generous Grocer’s low prices.
- E It ignores the fact that many people do not eat fruit.

YOUR NAME: _____

- 4 “All tapirs are mammals. No ape has a shell. Everything which is not an ape is not a mammal.”

If all of this is true, what can we legitimately conclude?

- A Nothing with a shell is a mammal.
 - B Every ape is a mammal.
 - C No tapir is an ape.
 - D Everything with a shell is a mammal.
 - E None of the above.
- 5 Which of the following statements is the only true one?
- A All five statements on this list are false.
 - B E is the only true statement on this list.
 - C A and D are false.
 - D All five statements on this list are true.
 - E B is true.
- 6 “Countries with high prison populations also have high crime rates. So if the government wishes to reduce the crime rate it should invest less money in punishment and more money in preventative measures.”

Which of the following is an underlying assumption of this argument?

- A The correlation between crime rates and incarceration rates indicates that high levels of crime cause high levels of imprisonment.
 - B The correlation between crime rates and incarceration rates indicates that high levels of imprisonment cause high levels of crime.
 - C Better-educated people commit fewer crimes.
 - D Criminals have a right to be treated humanely.
 - E It is better to prevent crime than to punish it.
- 7 In a particular year the month of November (which has 30 days) contains five Fridays.

Which of the following could not be true in that year?

- A The first Friday of the month occurs before the 4th.
- B The 1st of November is a Wednesday.
- C There are only four Tuesdays.
- D There are five Saturdays.
- E The 1st of December is a Sunday.

YOUR NAME: _____

- 8 “You can become a good flautist if you start to learn at an early age. You did not start to learn until you were an adult, so you cannot become a good flautist.”

Which of the following has the same structure as the above argument?

- A You can cure your headache if you are willing to try acupuncture. You refuse to try acupuncture, so you will not be able to cure your headache.
- B You can avoid being overweight if you take sufficient exercise. You take sufficient exercise, so you will not become overweight.
- C You can become a good singer if you have perfect pitch. You are a good singer, so you must have perfect pitch.
- D Children can become fluent in two languages if they start learning when very young. My children learnt two languages when young, so they speak them fluently.
- E Children have fewer ear infections if they take cod liver oil. My children have very few ear infections, so they do not need to take cod liver oil.
- 9 A pet shop sells large birds and small birds; each large bird costs twice the price of a small one. A customer came in and purchased five large birds and three small birds. If, instead, she had bought three large birds and five small birds, she would have spent £20 less. What is the price of each bird?
- A Large: £10; small: £5
- B Large: £20; small: £10
- C Large: £30; small: £15
- D Large: £40; small: £20
- E Large: £50; small: £30
- 10 There is a town where no two inhabitants have the same number of hairs. No inhabitant has exactly 409 hairs. There are more inhabitants than there are hairs on the head of any inhabitant. What is the largest possible number of inhabitants in this town?

- A 0
- B 408
- C 409
- D 410
- E 1,000

YOUR NAME: _____

11 You have 3 bags. Bag A contains 2 red balls. Bag B contains 2 yellow balls. Bag C contains 1 red ball and 1 yellow ball. You select a bag at random and take out a ball. It is a yellow ball. What is the probability that the other ball in the bag is yellow?

A $\frac{1}{3}$

B $\frac{2}{3}$

C $\frac{1}{2}$

D $\frac{3}{5}$

E $\frac{2}{5}$

12 You are managing a hair salon with 6 members of staff. Each member of staff gets 1 day of leave this week. There must be exactly 5 members of staff on each day Monday – Saturday, and the salon is closed on Sunday. The members of staff have the following preferences for their day off:

Aaliyah Monday, Tuesday, Thursday or Saturday

Bea Tuesday, Wednesday, Friday or Saturday

Chris Wednesday or Friday

Dave Tuesday or Friday

Ellen Tuesday, Wednesday or Saturday

Fiona Wednesday or Thursday

You want to accommodate everyone's preferences. What day should Fiona be off?

A Monday

B Tuesday

C Wednesday

D Thursday

E Saturday

YOUR NAME: _____

- 13 A secretary is in a bad mood with his boss and has to write three letters intended for three different people. He makes sure that each of the recipients of the letters will receive one written to someone else.

In how many different ways can he send three different letters to achieve this?

- A 1
 - B 2
 - C 3
 - D 5
 - E 6
- 14 “Advertising is largely to blame for a rise in personal debt. Research shows that the number of people in the UK with debts of more than 20 % of income rose significantly over the last 10 years. Researchers also found that the average expenditure on advertising by loan companies rose by 40 % over the same period.”

Which one of the following best identifies the flaw in the above reasoning?

- A It confuses the amount of debt with its value as a proportion of income.
 - B It gives a causal explanation when only a correlation is known.
 - C It makes a sweeping generalisation on the strength of a very local sample.
 - D It assumes that all debts are owed to loan companies.
 - E It fails to specify the amount by which debit increased over the preceding 10 years.
- 15 A newspaper consists of 8 large sheets of paper printed on both sides stacked and folded inward down the middle like a book. The first sheet has the first and last page on one side and the second and second-last page on the other. The second sheet has the third and third-last page on one side and the fourth and fourth-last on the other. And so on.

Which four pages all lie on the same sheet?

- A 1, 2, 15, 16
- B 2, 3, 30, 31
- C 3, 4, 30, 31
- D 5, 6, 27, 28
- E 13, 14, 17, 18

YOUR NAME: _____

16 Cathy has twelve black socks and twelve white socks in her drawer. None of the socks are specific to left or right feet. In complete darkness and without looking, how many socks must she take from the drawer to ensure she gets a pair of the same colour?

A 2

B 3

C 6

D 12

E 24

YOUR NAME: _____

Admissions Test – Part II

Faculty of Philosophy

4 December 2018

Write *one* essay on the topic of one of the questions below. You have 40 minutes for this part of the test.

QUESTION 1

If you know something, must you know that you know it?

QUESTION 2

Is the moral point of view of a work of art relevant to the assessment of it as a good work of art?
