

Undergraduate tuition fees 2016-17

- 1) Colleges collect all fees on behalf of the University i.e. they act as the fee collecting agent for the University.
- 2) In order to know which fee you will be charged, the College will look at:
 - a) Your **fee status** (expressed as either “home/EU” or “overseas”)

Fee status depends on both nationality and residency. Further guidance is available but, in short, if you are a UK or EU national **and** have been resident in the UK or EU for the last three years up until the 1 September before the course starts, you will be “home/EU” fee status. Otherwise, you are likely to be “overseas” fee status, but please note there are a number of exceptions to this rule which may qualify you to be “home/EU” instead: you will normally need to provide further information on your family history, parental employment, your education and your recent residence to make a decision.

- b) Your **previous highest qualification at the point of matriculation**

This only needs to be considered if you are a “home/EU” student, and will dictate whether or not you (a) should be charged the standard £9,000 fee and (b) can access tuition fee loans through Student Finance England. If you already has a first degree, you normally are not eligible for the government-sponsored funding, and are subject to paying the combined fees (rather than the single fee). The main exceptions are if you studying medicine, veterinary medicine or architecture even if you already have another degree.

- 3) If you are categorised by your College as a home/EU student, and you are studying your first undergraduate degree, your tuition fee will be expressed as a single fee (that the University and the Colleges share). This also applies if you are a home/EU student studying architecture, medicine or veterinary medicine, whether or not it is your first degree.

Otherwise, your tuition fee will be expressed in your formal offer as a combined fee that includes a University fee and a College fee. The precise amount of the fee will depend both on your course and your College, as outlined in the table overleaf.
